

# Circle of Fifths

Just to confirm Play D...Fm...E and Ab...these just do not sound well together...because they are not touching each other in the circle ...!!

Grey area... If you are in the key of C the chords surrounding C....F,Dm,Am,Em and G will sound awesome together !!!

If you want to be in the key of D, just move the grey area and center to D...your chords are: G,Em,Bm,F#m and A.....

**when you need to look something up..if you need to for quick reference.!!  
You don't have to memorize charts...!!!!!!**
